✏️ Research

2017-02 – 2018-02	On-line and Incremental Learning in Convolutional Neural Networks *Master Thesis – Machine Learning, Deep learning – Python*
2016-09 – 2017-01	Comparing Feature Pooling Methods and the Fisher Vector in Neural Networks *Master Research Project – Machine Learning, Deep Learning – C++*
2015-02 – 2015-06	Analysis and Visualisation of Data of an Outdoor Sports Mobile Application *Bachelor Thesis – Data Analysis, Data Visualization - Java*

♠ Extracurricular Activity

2014-09 – 2014-10	**Travelling to South Korea and Japan**
	Travelled alone to South Korea for a month and Japan for a month
2012-09 – 2012-12	**Mentor first-year students**
	Leiden University in Leiden, Netherlands
	Helping first-year students to get started, used to university and answering their questions.

🧩 Skills

- Java, Python, HTML5, CSS3, PHP, MySQL, PostgreSQL, JavaScript, C++
- Experienced with web development in front- and back-end
- Experienced with version control systems: SVN & Git

🚩 Languages

Dutch	Mother Tongue
English	Fluent
German	Fluent

♟ Activities & Interest

- Managing personal VPS
- Building and maintaining personal website
- Reading
